

Electric Diaphragm Pumps - Serie **GOLD**

GOLD 4200

Electric Diaphragm Pumps - Serie **GOLD**

It is an electric diaphragm pump designed for the small industries and craftsmen. GOLD 4200 is the ideal pump for small-medium injection of mono-component coatings.

TECHNICAL DATA:

Motor Volt	230 Volt	
	50 Hz	
Power	1 HP	
Max. Delivery	ltr/min	4,0
Max. Working Pressure	Bar (PSI)	200 (2900)
Max. Hose length	mt	60
Weight bare	kg.	19

Applications

Gel acrylics, epoxy resins, polyurethanes and the majority of 1-component injection coatings

INJECTION ACCESSORIES

1

2

3

1

Dump Valves

#66558 Dump Valve Maxi w/packer Support
#66568 Dump Valve Mini w/packer Support

3

Plastic Packer

#66559 Plastic Packer (1 valve)

2

Packer Support

#66552 Flat Packer support - straight
#66553 Flat Packer support - 90°
#66561 Plastic Packer support

Aluminium Packer

#66559xxx Packer Flat Head
#6655xxx Packer Ball Head
