

2k Equipment - Serie **SILVER**

SILVER 40

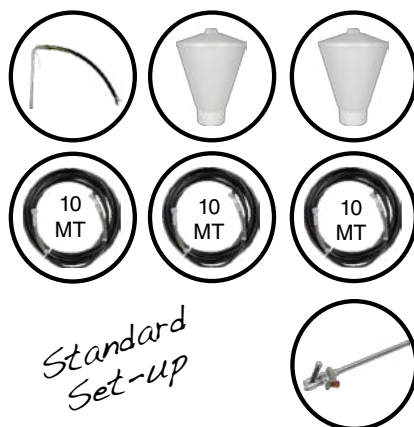

2k Equipment - Serie **SILVER**

Standard Set-up

It is a 2K airless pneumatic pump with air motor. It is ideal for injecting 2K coatings with mixing 1:1. The advantage to regulate the working pressure from 0 to 220 Bar, allows to use this pump in various jobs where 2k are required.

SILVER 40 can be equipped with a third pump for a fast cleaning.

Standard Set-up

TECHNICAL DATA

Pneumatic motor instant volumetric reversal	yes
Ratio	40:1
Mixing Ratio	1:1
Max. Delivery	ltr/min 9,0
Max. working pressure	210
Max. inlet air Bar	8
Weight	kg. 42
Air consumption	ltr/min 250 -1000
Pump for cleaning	on request

INJECTION ACCESSORIES

Lance 2k

#66550B Lance 2k Compact
#6550 Lance 2k

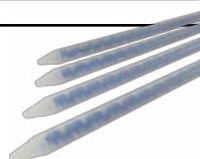

Plastic Packer

#66559 Plastic Packer (1 valve)

Packer Support

#66561 Plastic Packer support

Lance 3k

#66555B Lance 3k Compact
#66555 Lance 3K

Aluminium Packer

#66559xxx Packer Flat Head

Packer Support

#66552 Flat Packer support - straight
#66553 Flat Packer support - 90°
